

Green Your Classroom

The Knox County Health Department offers hands-on, standard based lessons on the environment, recycling, pollution, and solid waste for your classroom. All lessons are age-appropriate and can be adapted for various grade levels. Lessons include:

Landfill Construction
Buying Recycled
Lifecycles of Litter
Safe Home Cleaning Products
Litter Detectives
Water Pollution
Environmental Kids Books
Paper Making

To schedule a presentation or for information, please contact Mike Whitaker with the Knox County Health Department at 740-392-2200 ext. 2233 or mwhitaker@knoxhealth.com

Recycling and Litter Prevention education is offered through a joint partnership with the DKMM Solid Waste District, the Knox County Commissioners and the Knox County Health Department
